

Inter school Mime competition

Mime : The art of silent expressions

Mime competition is an art of portraying a character, mood, idea or narration by gestures and bodily movements. Expressing oneself. In oxford self by not talking, by facial expressions, by clear actions, by looking to the audience and by a proper beginning, middle and conclusion is a mime. In our Oxford International School, this year, we organised, Interschool Mime Competition (for the very first time) on 15th August 2024. This competition was a responsibility of 8th 'C' class, as a SEWA activity (Social Empowerment through Work Education and

Art). So, from arranging the places for the participant teams to arranging and serving food were done by students of 8th 'C' students.

Though this was the first attempt, 6 schools participated in this competition. The theme was 'over use of social media'.

Expressing the drawbacks of 'Over Use of Media' by not using a single word was an excellent, successful, experiment by Oxford International School. It was a unique competition.
